- HandleBars

Experience

Project #1 Theportfolioej.com
- This website was made post-graduation to accurately depict my skills and achievements to the potential employers. The website includes personal and professional information about me as well as the projects that I have created. The Website allows me to sign in as administrator and add or edit projects, also anyone can add comments to particular project which will be saved in a database.
- Full-stack project using ReactJS, NodeJS, ExpressJS, Mongo db, Mongoose, JavaScript, Materialize, and particlesJS animation.
